

Year 5 and 6 Newsletter

Thursday 21st October 2021

What have we been learning?

Year 5

In English this week, we planned and wrote our action scene about the battle between Malcom and Donalbain.

In Maths, we have been focusing on subtracting four-digit numbers with exchanging.

Year 6

This week, we have been understanding what factors, multiples, prime and square numbers are in maths.

In English, we have written our own non-chronological report, based on an animal of our choice, using key features learned in class to make it exciting and engaging.

In Science, we recreated the composition of blood. We learned what blood is made up of and the important job each part has to keep the body healthy.

Thank you to everyone for bringing in food for our Harvest collection, which will be donated to London Riverside Church in Dagenham.

Thought for the week...

May your week be filled with good thoughts, happy moments and kind people.

Helping at Home

Spend some time talking to your child about new knowledge and skills that they have developed during the first half term. What have they enjoyed the most? What learning has been the most challenging?

Football Team

Congratulations to the following children, who have been selected for our school football team: Vasile, Andrei, Darius, Osa, Freddi-Lennon, Frazer, Connor, Tiago, Finley, Lyndon, Joshua, Hazel, Arcadie and Eris.
