

Year 5 and 6 Newsletter

Friday 10th December 2021

What have we been learning?

Year 5

This week, we have been working out the area of compound shapes. We have had to work out the length of missing sides and then calculate the surface area by multiplying the length by the width.

In English, we have written a myth with a warning plot and then edited and redrafted our writing.

In RE, we have started to look at the story associated with Christmas.

Year 6

In Maths, we have been converting between fractions, decimals and percentages, sharing tips and tricks for how to find percentages of amounts in as fewer steps possible.

In English, we thought about how to appropriately share information about the war to young children, using humour to mask the complete truth at times.

In ICT, we worked collaboratively to plan a project.

Thought for the week...

Make today so awesome that yesterday gets jealous.

Celebration Zone

GOLDEN ACHIEVEMENT!

Writer of the Week

Hummingbird – Aidas

Woodpecker – Emma

Robin – Olivia

Kingfisher – Ciaran

Owl – Hatice

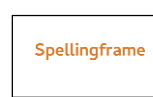

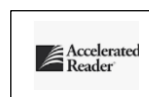

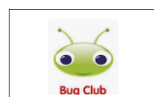

Sparrowhawk – Emran

House Points

Seacole 1811	Shakespeare 1891
Bannister 1611	Pankhurst 1640

Helping at Home

Remember that all homework is set online. Log onto the following websites using your child's log in details.

Don't forget -

Please ensure your child has the correct uniform for both every day and PE days. This does include a red Parsloes jumper. PE joggers and jackets should be black or navy in colour, with no logo and no earrings.
