

Year 5 and 6 Newsletter

Friday 20th January 2023

What have we been learning?

Year 5 In Science, we have learned about the heliocentric theory which explains how the planets orbit the Sun. We have also investigated day and night. In Maths, we have been comparing and ordering fractions whilst in English we have been planning our non-chronological report based upon the planets we have been researching.

Year 6

As you know, we have been incredibly busy sitting practice tests this week which the children have worked very hard in. We are proud of all our Year 6 children!

During this week, we have also been learning about Charles Darwin and writing a biography about his life.

Thought for the week...

This week it is Chinese New Year – what are you looking forward to welcoming?

Check out our school website for more exciting school news!
