

Year 5 and 6 Newsletter

Friday 10th February 2023

What have we been learning?

Year 5 We had a great day at the Royal Observatory on Tuesday. We took part in a workshop about the Sun, Earth and Moon as well as gazing into the night sky in the planetarium. We also stood at the point from which time is measured – the Prime Meridian line. Meanwhile, back in the classroom, we have been writing a discussion text in English and subtracting from a mixed number in Maths.

Year 6

Year 6 have been very eager to complete their Excel spreadsheets in Computing this week. They are very confident with collecting data and using this to represent as graphs including pie charts. In PE, they have been mastering their badminton skills. In Maths, they have been challenging themselves with algebra!

Thought for the week...
