

Year 5 and 6 Newsletter

Friday 13th October 2023

What have we been learning?

Year 5

We have had a week of exciting science experiments, where we have learned how to separate mixtures using filtering, sieving and evaporation. In Maths, we are now confident at finding common multiples and factors of a number. Our Computing lessons have reminded us about the processes and outputs required to make systems work; we even designed our own digital teddy, considering the inputs and outputs necessary to perform a desired process.

Year 6

We have also had fun in science. We looked at how the beaks of finches had adapted to suit their environment and investigated which beak type would be the most suitable to collect different foods. We used spoons, tweezers and pegs to simulate different beak types and tried collecting elastic bands, cubes, counters and seeds.

To finish off the week, we split into our houses to complete our first house challenge of the year- Black History Month. The children learned about influential black women and their contributions to the positive changes we currently experience.

Thought for the week...

How you love yourself is how you treat others to love you.

Celebration Zone

STARS OF THE WEEK!

Writer of the Week

Owl - Tasmia
Woodpecker - Gloria

Robin - Darcey
Kingfisher - David

House Points

Seacole 1107	Shakespeare 1076
Bannister 1037	Pankhurst 1110

Helping at Home

- Reading at least 3 times per week – adult to sign and date reading record.
- Times Tables practice.

Don't forget...

- PE kits to be in school every day.
- Water bottles and all uniform to be named.
